Fax: +258 21 461619

Throughout Mozambique, Telcabo projected and installed important communication corridor wire broadcast for the mobile telephone system expansion. Please see map on our website. Our vision is to be the Leaders and Model in providing integrated services in Telecommunication and Electricity areas either in national or regional markets. We appear with an instinct of dynamizing the Telecommunications markets in Mozambique, projecting and installing integrated and innovative telecommunication solutions that fulfil the Mozambican market needs in permanent growth. We earned several prizes, namely "World Quality Commitment" (2004); "International Award for Technology and Quality" (2005) and "37th International Trophy for Quality" (2009).
