TTI Telecom is a leading provider of next-generation Operations Support Systems (OSSs) to Communications Service Providers (CSPs) worldwide. For incumbent and emerging CSPs spanning fixed, mobile and cable markets, we provide a robust OSS platform that helps manage their networks and services effectively. The company's Netrac product portfolio delivers an automated, proactive and customer-centric approach to Service Assurance, spanning service management, fault management and performance management and complemented by inventory synchronization and service activation. Netrac is compatible with multiple technologies and industry standards, and is uniquely positioned to bridge legacy, next-generation, convergent, and IMS networks.
