Mobile broadband is changing the way the world communicates. The UMTS Forum helps all players in this dynamic new value chain understand and profit from the opportunities of 3G/UMTS networks and their Long Term Evolution (LTE). The UMTS Forum participates actively in the work of ITU, EC, ETSI, 3GPP and CEPT as well as other technical and commercial organisations globally. It also contributes to the timely licensing and deployment of mobile broadband globally through regular dialogue with regulators and responses to public consultations. Membership is open to network operators, regulators and the manufacturers of network infrastructure and terminal equipment.

UNESCO is United Nations agency working in the fields of education, sciences, culture, and communication and information. UNESCO, through its pavilion at ITU Telecom World 2009 aims at showing how UNESCO, with its partners, is taking action in empowering people with disabilities through effective utilization of ICTs. The pavilion's space is also for mobilization of new action-oriented partnerships and furthering cooperation among various stakeholders. UNESCO envisages a number of events such as case presentations on specific themes, private meetings with partners and workshops. UNESCO's partners are: DAISY Consortium Chinese Fund for Disabled People IFLA - International Federation of Library Associations and Institutions, Library Services to People with Special Needs Section Everyone Counts, Inc.
