WTL is a Brussels-based pioneer in the VoIP carrier equipment market with a full product range including: multi-protocol VoIP to TDM switches (SIP, H323, ISDN and SS7); SoIP Gateway: low cost SS7 to IP signalling and media gateway with integrated SoftSwitch and SBC); PVx: SoftSwitch with full pre-paid, post-paid, callback, IVR and billing. WTL are also the creators of NOP, a VoIP optimization technology that saves 50% of bandwidth for any H323 or SIP traffic. We specialize in VoIP over satellite, with the only voice optimization equipment supported by ESA (European Space Agency). For more details, see www.wtl.be
