Axelprod GSM transmission: Industrial telemetry systems using the GSM network. Axelprod provides products and complete monitoring solutions through the web for telemetry and remote alarm applications using SMS and real-time connection with GPRS. Axelprod expertise will help customers to build their own applications from the simplest to the most advanced, including monitoring solutions through the web. Axelprod will use its latest GPRS server development to propose to customers a real-time and permanent connection through GPRS, along with historical graphics and alarm front panel. Axelprod is your partner for remote applications through the GSM network.
