Cisco is the worldwide leader in networking that transforms how people connect, communicate and collaborate. Our technology is changing the nature of work and the way we live. Since 1984, Cisco has led in the development of Internet Protocol (IP)-based networking technologies including routing, switching, application networking, home networking, security, storage area networking, TelePresence, unified communications, video systems and wireless. Cisco and our valued partners sell our hardware, software and services to businesses of all sizes, governments, service providers and consumers. We are committed to responsible business practices to help ensure accountability, business sustainability and environmentally conscious operations and products.

**Anywhere**  
will be the biggest technology transformation in our lifetimes.  
Our world will connect all people and all the things that we care about.
