CobiNet GmbH, one of the leading brand-name manufacturers and full-line suppliers of telecommunications, data network, optical fibre components and complete cabling systems, unveils its latest products. LSA-HD is CobiNet's answer to the need for applications that are faster, while ensuring the highest levels of reliability. LSA-HD stands for double packing density, 45°angled contacts, shielding between star quads, overvoltage protection and test connector slots. CobiNet 19" patch panels with 24 individually shielded RJ45 ports are now also available in half-U format, so that two patch panels (48 ports) can be accommodated in one unit (44.45 mm) of the 19" rack.

Communications Africa/Afrique is the premier telecoms and broadcasting magazine for Africa. Published bi-monthly, telecoms, broadcast and convergence are covered in English and French, in both Francophone and Anglophone africa. The magazine reaches business and telecoms operators and manufacturers, charting business developments, projects and news in the region. It is the only African publication for the communications sector that has its circulation independently audited by the British ABC organization.
