Comtek is a Pan-European telecommunications and network repair specialist. Our services extend equipment life through repair rather than replacement, saving money and helping preserve the environment. Comtek is Europe's largest multi-vendor IT hardware repairer with facilities in England, Wales, Germany and Holland. Unparalleled technical proficiency enables us to repair both current and legacy hardware from most of the world's manufacturers, including Nortel, Cisco, Avaya, Alcatel-Lucent, Nokia and many more. Comtek provides third-party RMA and warranty management services for major IT equipment manufacturers.

Converse is the world's leading provider of software and systems enabling value-added services for voice, messaging, mobile Internet and mobile advertising; converged billing and active customer management; and IP communications. Converse's extensive customer base spans more than 130 countries and covers over 500 communication service providers serving more than two billion subscribers. The company's innovative product portfolio enables communication service providers to unleash the value of the network for their customers by making their networks smarter. Converse's solutions support flexible deployment models, including in-network, hosted and managed services, and can run on circuit-switched, IP, IMS or converged network environments.
