DEMPA is the leading Japanese publisher serving the electronics industry. In addition to Dempa Shimbun Daily, the company also publishes trade magazines in English. Asia Electronics Industry (AEI) covers chip solutions, components and technologies, and tests and measuring equipment from the region's emergent market. Journal of the Electronics Industry (JEI) covers home theaters, digital A/V equipment, optical and solid-state storage media, as well as batteries and other electronics-based sources of energy. Three times a year, Broadcasting Equipment and Technology (BET) zeroes in on digital broadcasting equipment and systems.
