Dilmanc is a project for the development of the applied linguistic technologies (Machine translation, Speech Recognition, Text-To-Speech, Speech-To-Speech translation etc. systems) and software for Azerbaijani. The project is carried out within National E-Governance Network Initiative project and is being financed by Ministry of ICT of Azerbaijan. Research and Development (R&D) works on the project are being led since April, 2005. Presently within the project the first version of the Dilmanc MT, ASR and TTS systems have been developed. R&D works of Dilmanc group on creation of the linguistic technologies within the project are being continued.

DOCledge

Stand 4421 Belgium Pavilion

DOCledge

DOCledge (Document Knowledge) is the result of more than 20 years experience of Patrick Lacroix and his team in the domain of electronic document management and especially in capture, processing, archiving and sharing of all types of information. Our clients include Solvay, NATO and Eurocontrol, Ministries, among others, for whom we develop software and full solutions tailored to their needs. Modern-day information technologies help companies to easily manage their documents. DOCledge is also developing solutions for SME s and proposes them in SaaS (Software as a Service).

Earth Focus Foundation - Green Map

Stand 4040.06 Green@ICT Pavilion

Earth Focus Foundation - a Swiss foundation, continuing to work with young people started within the renowned Bellerive Foundation, representing Green Map, mapping for sustainable development, for Swiss Romande, with SBM Conseil. The foundation's vision: to build and protect a better sustainable world, more peaceful for the future generations. Promote and share an understanding of the environment and human rights, knowing that young people have an important role to play. Our values: enthusiasm, encouragement, positive stimulation, understanding and respect for the human and natural world. Our tools: publications circulated worldwide, debates, roundtables and map-making for sustainable development.
