Enqio increases the value of telco operators. From data we draw insights. These lead to business decisions and actions that are guaranteed to result in a sustainable growth of turnover and profit. We help your company meet the increasing need for risk analyses, transparency, reporting and auditing. Enqio's technology, advice and services help make decisions based on the right analyses at the right time. We're specialised in in-depth data analysis for telco operators. Enqio is internationally active and stands out thanks to its quality, creativity and experience. Our customers: FT/Orange, Mobistar, Optimus, Telenet, P&TLux, Rogers, Turkcell, and many others.

Essentia is a leading edge European maker of professional telecommunications equipment. With the Essentia Wifless (TM) ESS products line, the company has carved an enviable niche in the market as the best carrier-class manufacturer of IEEE 802.11abgn wireless solutions. In consortium with Alcatel-Lucent, Essentia has deployed the biggest European wireless network based on the IEEE 802.11abg protocol, confirming the outstanding scalability and performance of the Essentia Wifless ESS solution. The Essentia Wifless ESS products line, thanks also to the G-PON and ADSL2+ uplink options, is today the most scalable and most flexible wireless broadband access solution available in the market.
