

## Forum Facts and Figures

The ITU TELECOM WORLD 2009 Forum was extremely well attended including also a lot of high profile attendees. The topics were obviously right, perhaps those about upcoming technologies with large potential for future networks not enough visible. Rooms were full. Technology applications more than green issues and cyber-security (policy issues not competing with ITU).

### Call for Nominations and Forum Advisory Committee

- A Call for nominations was posted on the event website in January 2009.
- 169 Potential Speakers were composing the Waiting list in February 2009
- A revised Forum Advisory Committee was created in February 2009.
- 46 Members have been invited to serve, in the first instance, through February 2010.
- The Forum Advisory Committee met in Geneva on 16/17 March 2009 to establish the Draft Forum Programme.

### Forum Programme

A new format was created to encourage new levels of debate and interaction. No presentation were made during the Forum.

#### Format:

- 1 Forum Opening
- 1 Open Summit
- 2 CEOs Roundtables
- 1 CTO Roundtable
