Youth Forum – Lunch Sessions

With the participants coming from such a diverse range of backgrounds, countries and cultures, it was felt that the experience of the Youth Forum and capacity building could greatly be enhanced by providing Luncheon Sessions during the event, and that it would be both useful and appropriate if the Youth Forum Sponsors were to provide the content of discussion for these sessions.

During WORLD TELECOM 2009, topics discussed by the sponsors were:

The Key Role of the Enabling Environment in Ensuring Broadband Access for All	Telecommunication Development Bureau (ITU-BDT)
How Cisco Networking Academy is using social media tools like Twitter and Facebook to provide environments for community to connect, share intelligence, and increase communication between students, alumni instructors and Cisco.	Cisco Systems
Next Generation Leaders Progamme	Internet Society (ISOC)
The challenges of International Radio Regulations in the 21st Century"	Radio Communications Bureau (ITU-BR)
Radio Communications Bureau (ITU-BR)	
Standards that shape the World	Telecommunication Standardization Bureau (ITU-TSB)
The Connectivity Scorecard	Nokia-Siemens
