

CCITT SGXV  
Working Party XV/1  
Experts Group for ATM Video Coding

AVC-007  
8 November  
1990

SOURCE : JAPAN  
TITLE : Japanese Activities on ATM Video Coding Standards  
PURPOSE: Information

.....

The necessity of standardization for video coding and transmission in ATM networks has been recognized in Japan and a subcommittee\* named "AV&ATM Video Coding" has been set up by MPT (Ministry of Posts and Telecommunications) under the chairmanship of Mr. M.Wada (KDD). The purpose of this subcommittee is to discuss specific matters concerning ATM video coding, form a consensus of opinions on them and contribute these opinions to CCITT to accelerate standardization. The companion four contributions are the first outputs of this group.

17 organizations listed below have voluntarily joined the group so far. The subcommittee is expecting the early recommendation of ATM video coding standards.

- List of participating organizations

NTT, KDD  
Canon, Fujitsu, Graphic Communication Technologies  
Hitachi, JVC, Matsushita Communication, Mitsubishi  
NEC, NHK, OKI Electric, Sharp, Sony  
Tokyo Electric Power Company, Toshiba  
Waseda University

\* See Appendix for the organization of "CCITT Committee" by MPT in Japan.
