Document AVC-669
7 July 1994

Source: RAPPORTEUR FOR Q.2/15 IN ITU-T SG15(Sakae OKUBO)
Title: ITU-T APPROVAL OF COMMON TEXT RECOMMENDATIONS I
INTERNATIONAL STANDARDS
Purpose: Information

1. Common text Recommendations

ITU-T SG15 decided to apply the common text to the MPEG-2 Video and Systems in November 1992 and May 1994, respectively. Their titles are now;

ITU-T Recommendation H.262/ISO/IEC 13818-2
Information Technology - Generic Coding of Moving Pictures and Associated Audio
Information: Video

ITU-T Recommendation H.222.0/ISO/IEC 13818-1
Information Technology - Generic Coding of Moving Pictures and Associated Audio
Information: Systems

2. Approval process

The current plan for approval of the above mentioned two Recommendations are as follows;

Date	ISO/IEC JTC1	ITU-T
May 1994		<ul style="list-style-type: none"> • SG15 decided to apply the common text approach to H.222.0 ISO/IEC 13818-1 • Attach TD29 (1/15) for H.262 to the meeting report and translate it • Attach TD30 (1/15) for H.222.0 to the meeting report but does not translate it
Jun 1994	<ul style="list-style-type: none"> • WG11 meeting for Systems in Atlanta • Start the 4 months DIS ballot for 13818-1,2,3 	<ul style="list-style-type: none"> • Rapporteur submit DIS version of Systems in form of a white contribution for H.222.0 ISO/IEC 13818-1 • TSB translate it
• • • • •	• • • • •	• • • • •
Oct 1994		<ul style="list-style-type: none"> • Rapporteur submit a white contribution listing comments from Experts Group members which should be considered at the November joint meeting of WG11 and ITU-T Experts Group toward IS version
Nov 1994	<ul style="list-style-type: none"> • WG11 handle DIS ballot results and comments at its meeting in Singapore • SC29 approve IS at its meeting in Singapore • SC29 respond to the common text approach to Systems (13818-1) decided by ITU-T SG15 	<ul style="list-style-type: none"> • TSB submit a circular letter to invoke Resolution No.1 re H.261 and H.222.0 referring to the May meeting report (H.262) and the Rapporteur's white contribution (H.222.0)

Date	ISO/IEC JTC1	ITU-T
Dec 1994		• Rapporteur submit IS version of Video and Systems as Delayed contributions by indicating changes made
Jan 1995		
Feb 1995		• SG15 decide letter ballot for H.262 and H.222.0 at its meeting (this should be unanimously agreed)
.....
Jun 1995		• Approval of H.262 and H.222.0 (by more than 70% majority)
	Publication of Recommendation International Standard	

3. Request for cooperation

In order to get the ITU-T decision of applying Resolution No.1 to the two Recommendations, members of ITU-T Experts Group and MPEG are requested of the following.

1) Comments for the DIS version

The "Guide for ITU-T and ISO/IEC JTC1 cooperation (March 1993)" stipulates the final stage of the standardization work as follows;

- Responses from National Bodies of JTC1 and ISO/IEC to the DIS ballot are collected by the ITTF and distributed in a Summary of Voting Report by the SC secretariat. ITU-T members will comment by means of contributions to the SG. Both sets of response are to be made available to each of the two working level groups.
- The DIS ballot responses and the comments from ITU-T members will be considered as the DIS ballot resolution meeting. With ITU-T participation, the group reviews and resolves the comments and negative ballots.

The November meeting should be operated accordingly.

2) Delta between DIS and IS

ITU-T meeting in February 1995 needs this delta document as well. Hence the November work should make this possible.

3) Patent licensing policy statement and advice of relevant patent information

The action for ITU-T Rec. H.262|ISO/IEC 13818-2 (Video) is ongoing as summarized in the companion document AVC-670. This should be completed. Furthermore the same action should be taken for ITU-T Rec. H.222.0|ISO/IEC 13818-1 (Systems).

Full support of ITU-T and ISO/IEC JTC1 members are requested.

END
