TITLE: PATENTS

No patents have been found, owned by Swedish companies or persons, which are related to Reference Model no 2.

In general, the following conditions apply:

- If an employee in the Swedish Telecom Group makes or will make a relevant invention, STG grants to the members in the Specialists Group a non-exclusive right to use the invention.
- This applies only to such inventions that STG owns and can control.
- The rights are restricted to the current area of discussion in the Specialists Group and cannot be extended to other areas.
- For other persons, organisations or companies the principle "fair and reasonable terms" apply.

It is assumed that what is mentioned here are only general conditions and that agreements will be formulated and signed between participating parties.
