Title: "Statement on patents on 384 kbit/s picture coding  
for visual telephony"

In case of a CCITT recommendation CSELT will grant licenses under its Patents on a non exclusive basis and on non discriminatory fair and reasonable terms to all users solely for their use in complying with the Recommendation, but on condition that any such user first express willingness to grant to CSELT, for itself and its subsidiaries, similar licenses under such user's Patents, if any, for use in complying with the Recommendation.

As used herein,

"Patents" means patents for inventions made prior to the adoption of the Recommendation which patents are owned or controlled by the grantor (CSELT or the user) or its subsidiaries; provided, however, that in no event will any licenses granted pursuant to this commitment include licenses under any patent the use of which is not essential to meeting the Recommendation or which can be avoided by those skilled in the art through the exercise of their best efforts

"Recommendation" means a recommendation by the CCITT for preferred algorithm for 384 kbit/s picture coding for visual telephony.
