Title: Testsequence of an "Interactive Graphic"

Source: FRG

A new testsequence, considering an interactive graphic scene has especially been created. This sequence includes three parts:

1. approx. 125 fields of a static background
2. approx. 125 fields of an interactive part
3. approx. 125 fields of a static background

The sequence has been created with a professional studio camera and been converted to CIF.

A digital tape with 375 fields of this sequence is available (COST-format). This sequence is called "SWING" (Sequence With Interactive Graphic).
