Title: INFORMATION ON PATENTS FROM STA

According to previous agreement we inform that STA has one patent which could become relevant to draft Rec. H.261.

The patent deals with variable length coding, with special attention to the so called "End-of-block-trick".

Filing dates:

|         |            |
|---------|------------|
| Sweden: | 1987/02/20 |
| Europe: | 1988/02/11 |
| USA:    | 1988/02/17 |
