

# WORLD RADIO DAY 2022 OFFICIAL SOUNDTRACK

My relationship with Radio broadcasting began at age 19, when I became a Broadcast Assistant Intern for BBC Radio Nottingham, in the UK. I saw first hand the important role that the Radio plays, in connecting communities, providing valuable information to diverse audiences and how it innovates with new technologies time and time again.

This year, to celebrate World Radio Day 2022, I have written and performed an original song called 'Loud (Radio)'. I dedicate this song to every person around the world, who is using the Radio to make a difference in people's lives, locally, nationally or globally. Thank you for the incredible work that you do.

**Happy World Radio Day!**

-Rachele Fisher, Singer, Songwriter and TV & Radio Host

## LOUD (Radio)

Written and performed by Rachelle Fisher

### Verse 1

We come together with one thing in mind  
How can we use what we have  
To change many lives  
We're on a mission  
It's very plain  
Let's use the Radio  
For connection and change  
Connection and change

### Chorus

We got a reason  
To make our voices  
Loud Loud Loud  
Loud Loud Loud  
(On the Radio)  
People will listen  
If we make our voices  
Loud Loud Loud  
Loud Loud Loud  
(On the Radio)

### Verse 2

Don't underestimate  
The difference you make  
Sharing your stories  
With people everyday  
The World is changing  
But we're not afraid  
'Cause we know the Radio  
Isn't going away  
No, it won't go away

### Chorus

We got a reason  
To make our voices  
Loud Loud Loud  
Loud Loud Loud  
(On the Radio)  
People will listen  
If we make our voices  
Loud Loud Loud  
Loud Loud Loud  
(On the Radio)

### Spoken

It's so important to remember  
That your voice makes a difference  
It doesn't matter who you are  
Where you come from  
What the colour of your skin is  
If you have ideas, if you have perspective  
If you have a story  
You have to share it.

### Chorus

We got a reason  
To make our voices  
Loud Loud Loud  
Loud Loud Loud  
(On the Radio)  
People will listen  
If we make our voices  
Loud Loud Loud  
Loud Loud Loud  
(On the Radio)
