

AGENDA

Regional Seminar: Non-Ionizing Radiation: Keys for Deployment of Infrastructure and Health Protection

Organized by the International Telecommunication Union (ITU) in collaboration with the Secretary of Communications (SECOM) of the Ministry of the Federal, Planning, Public Investment and Services of Argentina, the Regional Group for Latin America and the Caribbean (GRALyC.) of ITU Study Group 5, Environment and Climate Change with support from the Technical Advisory Service to Argentina Municipalities of the *Federación Argentina de Municipios* (SAT / FAM) and the *Universidad Nacional de San Martín* (UNSANM).

The event will consider the status of international scientific research and the work developed by ITU Standardization and Development Sectors. It will also evaluate experiences related to the control, at regional and international levels and the pilot experience of Argentina concerning the Code of Good Practices for Installation and Continuous Monitoring System that is under development by the *Federación Argentina de Municipios* and the *Universidad Nacional de San Martín*.

Thursday, 16 December

| | |
|--------------|---|
| 8:00-9:00 | Registration |
| 9:00- 10:00 | Opening session |
| | ITU Representative Rodolfo Adreani, Coordinator of the SAT/FAM Héctor Carril, ITU Vice-President of Study Group 5. Environment and Climate Change. Lisandro Salas, Secretary of Communication of Argentina Julio Pereyra, President of "Federación Argentina de Municipios" |
| 10:00- 10:20 | Welcome Remarks: Deployment of telecommunication networks: The problem of Latin America, <i>Héctor Carril, ITU Vice-President of Study Group 5, Environment and Climate Change and President of the Regional Group for Latin America and the Caribbean</i> |
| 10:20 -11:00 | Protection against electromagnetic fields exposure: Present Status and Future Perspectives <i>Paolo Vecchia, President of the International Commission on Non-Ionizing Radiation Protection (ICNIRP)</i> |
| 11:00- 11:30 | Coffee break |
| 11:30 -13:00 | Protection against electromagnetic fields exposure: Present Status and Future Perspectives (continuation) |
| 13:00 -15:00 | Lunch time |

| | |
|--------------|---|
| 15:00- 16:00 | Mobile Networks: Exposure Levels and Deployment Policies. <i>Jack Rowley: Director Research & Sustainability GSM Association</i> |
| 16:00- 16:30 | Coffee break |
| 16:30- 17:30 | RNI The Manufactures' View: Security and Responsibilities <i>Aderbal Bonturi Pereira, Latin América Director (Mobile Manufactures Fórum- (MMF),</i> |

Friday, 17 December

| | |
|--------------|---|
| 9:00 – 10:00 | Brazil Experience with Human Exposure to EMF: Measurements, Monitoring and Enforcement and ITU-T SG 5 and its Recommendations Regarding Human Exposure to EMF <i>Agostinho Linhares: Vice-President of the Regional Group for Latin America and the Caribbean, SG 5 Environment and Climate Change (Anatel, Brazil)</i> |
| 10:00 –11:00 | The Rules of the Technical Measurement of the RNIs in Argentina <i>Víctor Fizzera: Coordinator of the National System of Technical Measurement of Emissions of the National Communication Commission of Argentina.</i> |
| 11:00 –11:30 | Coffee break |
| 11: 30 13:00 | The experience of the Cataluña, Spain <i>Josep Ferrer: General Director of Telecommunication Infrastructure Network of Cataluña, Spain</i> <i>Ernest Cid, President of Wave Control, Cataluña, Spain</i> |
| 13:00 –15:00 | Lunch time |
| 15:00 – 6:00 | Best Practices Code of Installations, FAM, OCM Agreement <i>Fernando Fux: Technical Service Advise “Federación Argentina de Municipios (FAM)”</i> |
| 16:00 –16:30 | Coffee break |
| 16:30 –17:15 | Round Table with Speakers Moderator: Ricardo Terán, Member of the ITU Radio Regulation Board |
| 18:00 | Closing Session <i>ITU Representative</i> <i>Héctor Carril, ITU VP SG5, Environment and Climate Change</i> <i>Ceferino Namuncurá, Interventor of the National Communication Commission (CNC) of Argentina.</i> |
