

INTERNATIONAL WORKSHOP on 5G Mobile Communications Systems-2014

5th Generation (5G) Mobile Communications Systems towards 2020 and beyond have been studied actively in each region of the world. From a socio-economic perspective, which is included in various fields such as medical care and education, the 5G services will be expected to introduce completely new mobile services that use ultra high-speed and ultra high-capacity data, such as holographic video (Stereoscopy) data.

In this workshop, the representative of the international standardization organization of radiocommunication and the representatives of associations to study the 5G Mobile Communications Systems from Europe, China, Korea and Japan will come together, and exchange opinions about the concept of 5G Mobile Communications and the prospects of services and technologies etc.

The workshop will be held by Ministry of Internal Affairs and Communications (MIC) and International Telecommunication Union (ITU) during the event "CEATEC JAPAN 2014", which will provide exhibitions and conferences on advanced communication technologies.

Welcome Address

- (TBD)
Ministry of Internal Affairs and Communications, Japan
Mr. Colin Langtry
Chief, Study Group Department, Radiocommunication Bureau
International Telecommunication Union

Presentation

Keynote Speaker

Dr. Susumu Yoshida (Professor Emeritus, Kyoto University)
Chairman of 5G Workshop-2014 Organizing Committee

Speaker 1

Dr. Hakan Ohlsen (Ericsson)
Vice Chairman, ITU-R Working Party 5D

Speaker 2

Dr. Werner Mohr (Nokia)
Chair of the Board of The 5G Infrastructure Association,
5G Public-Private Partnership (5G PPP)

Speaker 3

Ms. Zhiqin Wang (CATR)
Vice Chairman, IMT-2020 (5G) Promotion Group, China

Speaker 4

Prof. Youngnam Han (KAIST)
Chairman of Steering Committee, 5G Forum, Korea

Speaker 5

Mr. Takehiro Nakamura (NTT DOCOMO)
Leader, ARIB 2020 and Beyond Ad Hoc, Japan

Panel Discussion

Moderator

- **Mr. Waichi Sekiguchi**
(Editorial Writer, Nikkei Inc.)

Panelist

- **Dr. Hakan Ohlsen**
- **Dr. Werner Mohr**
- **Ms. Zhiqin Wang**
- **Prof. Youngnam Han**
- **Mr. Takehiro Nakamura**
