**LIST OF INTERNATIONAL SIGNALLING
POINT CODES (ISPC) (ACCORDING TO
ITU-T RECOMMENDATION Q.708 (03/99))**

(POSITION ON 1 APRIL 2002)

List of International Signalling Point Codes (ISPC)

Note from the TSB

1. This List of International Signalling Point Codes (ISPC) replaces the previous one published as Annex to the ITU Operational Bulletin No. 735 of 1.III.2001. Since then, a number of notifications have been received at TSB and they have been published separately in various issues of the ITU Operational Bulletin. The present list recapitulates all the different amendments that have been published up to Operational Bulletin No. 761 of 1.IV.2002.

2. Recommendation Q.708 states that the assignment of signalling area/network codes (SANC) is to be administered by the TSB. Each country will then be responsible for the assignment of international signalling point codes (ISPC) that will then be notified to the TSB.

3. The numbering plan of Recommendation Q.708 contains 2 048 SANCs providing for 16 384 international signalling points. From these, currently 1 536 SANCs are available for assignment allowing for 12 288 international points. At present 617 SANCs are assigned; the reported utilisation is 2 706 international signalling points.

4. In order to keep the list up to date, Administrations are, therefore, requested to notify the TSB, by using the attached notification form, as soon as an ISPC assignment or withdrawal is made.

5. This List will be updated by numbered series of amendments published in the ITU Operational Bulletin. Furthermore, the information contained in this Annex is also available on the ITU home page <http://www.itu.int/itu-t/bulletin>, and can be consulted by subscribers by remote access.

6. Please address any comments or any modifications concerning this List to the Director of the TSB:
