

USEC. LOUIS NAPOLEON C. CASAMBRE ICT Office Executive Director

His entire professional life has been spent in the Information Technology industry, having 36 years of experience in Electronics and IT.

He began his IT career while a junior in college as a consultant of C.I.S. the IT arm of Meralco, and was tasked to design firmware for the Apple II.

After graduating from the University of the Philippines with a degree in Electrical Engineering, he began his professional IT career with the then newly formed Microelectronics Division of the Advanced Science and Technology Institute (ASTI).

He then went on to work with various companies in the private sector, his last stint being the Division Director of ROHM LSI Design Philippines, a wholly owned subsidiary of ROHM Semiconductor of Japan, one of the top semiconductor companies in the world.

Now returning to a government position as the Executive Director of the ICT Office of the Department of Science and Technology, one of his goals is to make significant contributions to improve the lives of Filipinos through the use of ICTs as a catalyst in socio-economic development.
