

Abdulla Shiham

Abdulla Shiham joined the Maldives telecom sector way back in 1992, after completing further studies in Singapore as an engineer. Since then he has been working in various technical areas. At present he heads the Spectrum Management of Maldives, represents the SATRC working group on Spectrum and currently the Deputy Director at Communications Authority of Maldives.

Mr. Shiham's very actively participated in the disaster management and the formulation of the disaster policies and worked in formulation of Maldives Telecom Policy 2001-2005 which proved to be the main instrument that brought about he changes and developments that the Maldives sector is going through now. He has attended and participated in many regional and international events and conferences on ICT.
