# EASTIN

*www.eastin.eu*

The screenshot shows the Eastin website homepage. At the top left is the Eastin logo. On the top right, there are links for 'Change Language' and 'Login'. A dark blue navigation bar contains the following menu items: 'SEARCHES', 'WHAT IS EASTIN', 'ABOUT US', 'DOCUMENTS', and 'GATE COMMUNITY'. The main heading reads 'The Global Assistive Technology Information Network', followed by the subtitle 'The worldwide search engine on Assistive Technology'. Below this is a search bar with a 'Search' placeholder, a dropdown menu set to 'All', and a 'SEARCH' button. A horizontal menu below the search bar includes: 'Assistive Products' (with a home icon), 'Organisations' (with a briefcase icon), 'Library' (with a book icon), 'Submit a Product' (with a document icon), and 'Info Request' (with an exclamation mark icon). The 'Assistive Products' section is active, showing the heading 'Search Assistive Products' and a text input field with the placeholder 'Enter the product name (brand name or model number of the product)'.

# Currently working in 25 languages *(prepared for an unlimited number of languages)*

The image displays a stack of overlapping screenshots of the Eastin website, demonstrating its multilingual capabilities. The top-most screenshot is in Chinese (Taiwan) and shows the main navigation menu and a search interface for assistive technology.

# Key messages

- **The EASTIN system has proven a feasible approach**
  - *to aggregate AT information resources from all over the world*
- **The EASTIN system is not «competing» with national databases**
  - *it only aggregates information of international interest, while national DBs provide comprehensive and detailed info for citizens of their country*
- **Participating in the EASTIN gives the partners added value**
  - *It helps improving the national systems through expertise exchange*
- **The EASTIN network is open**
  - *to any new partner who shares the EASTIN Mission*
- **The ambition is to become truly global**
  - *By having all major national databases connected and national contacts in most countries worldwide*
