

Digital Assistive Technology (DAT)

BEH – Bundesfacherband Elektronische Hilfsmittel eV

The German Digital Assistive Technology
Industry Association

Christoph Jo. Müller
Board President

DAT in Germany and Europe:

- BEH - The German DAT Industry Association
- AAC, ECU, Computer Access, Blind and Low Vision
- The interface is the key, even if the gap is very small
- The DAT industry is developing solutions in an early stage of new technology
- Innovations becoming standard technology, tearing down barriers for all
- Special interfaces for a small group of people

Hand tremor, the hidden challenge:

- Millions of people suffering from a severe hand tremor
- Essential Tremor, Parkinson's Disease, other reasons
- Problem: Not able to use a touch screen or a computer mouse
- Solution: smart interfaces tearing down this barrier

Launch Announcement:

DATEurope
Digital Assistive Technology
Industry Association

Vision

Enable access to Digital Assistive Technology for all.

Mission

Unite the DAT industry across Europe to influence legislation, awareness, sustainability, growth and commerce.
