

# Partnership in ICT Statistics: The National ICT Household Survey 2019

Country Presentation  
Philippines  
September 2020

# NATIONAL ICT HOUSEHOLD SURVEY 2019

## First-Ever National ICT Household Survey

- To gather ICT data at the household and individual level to support the monitoring of ICT performance indicators
- To gather critical data on ICT demand towards improvement of public service delivery
- To provide a national baseline for core ICT household indicators
- To support ICT planning and policy formulation

# Key Roles in the Conduct of the National ICT Household Survey 2019

## Philippine Statistics Authority

- Inter-Agency Committee on ICT Statistics Endorsement
- Statistical Survey and Review Clearance System
- Master Sample Design for Regional and National Estimates

## Department of Information and Communications Technology

- Identification of ICT indicators
- Questionnaire Development
- Training of Trainers
- Facilitation and Field Monitoring

## Philippine Statistical Research and Training Institute

- Field Supervisors and Enumerators Training
- Field Enumeration
- Data Processing
- Generation of Statistical Tables
- Technical and Field Operations Report

# SURVEY DESIGN AND METHODOLOGY

## PSA Master Sample

43,838 Households  
(in 2,617 Barangays / villages)

## Respondents

Household Heads  
Individuals 10 – 74 years old  
Community Heads

## Survey Questionnaires

Household Questionnaire  
Individual Questionnaire  
Community Questionnaire

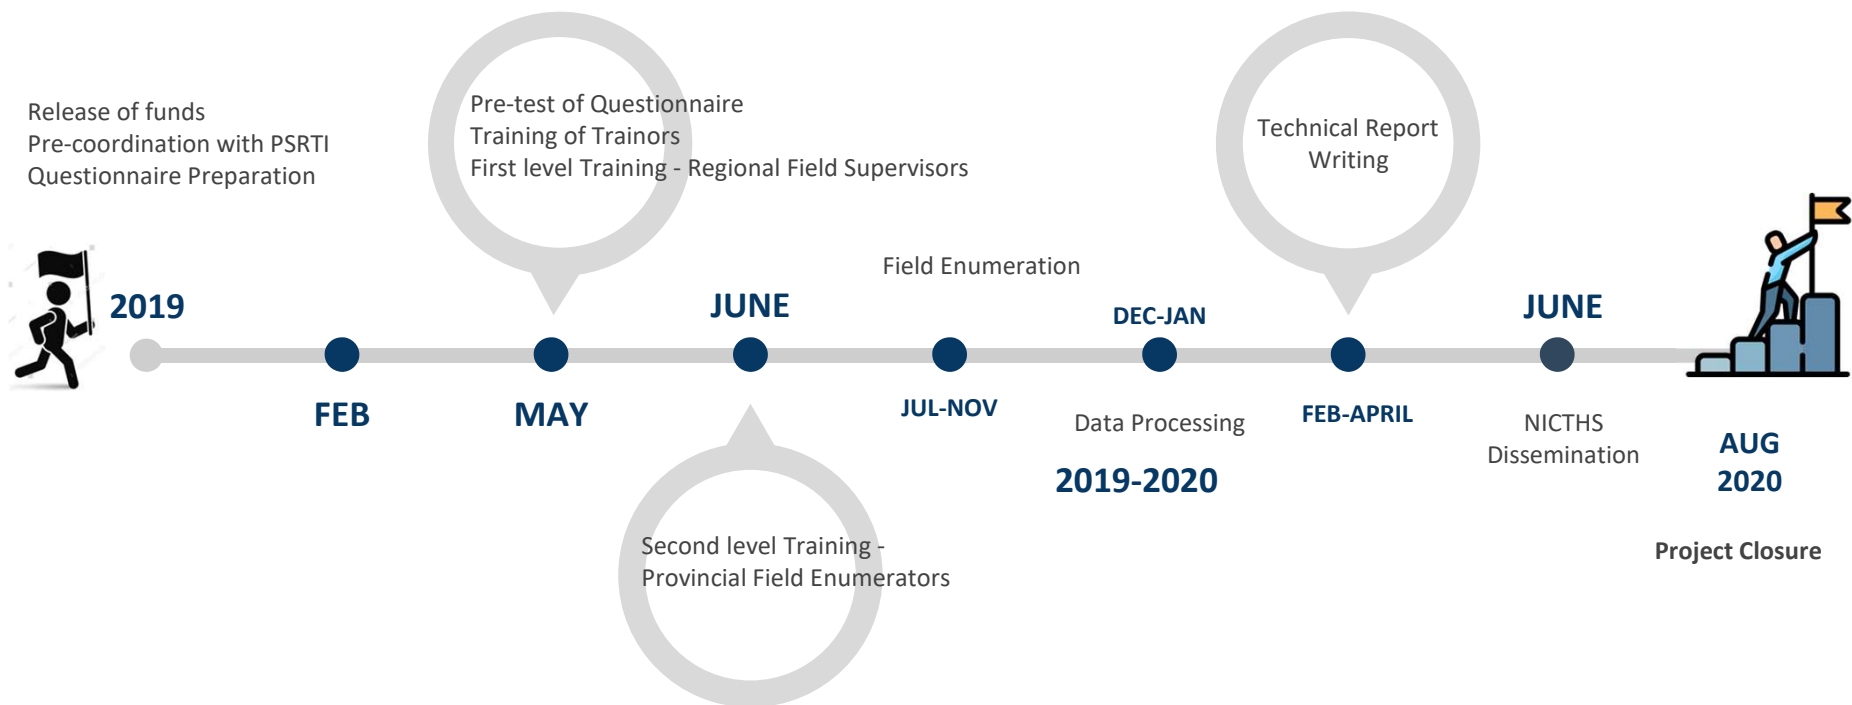

## Total Indicators

36 Core ICT  
21 Digital Economy  
5 Cybersecurity

## Indicators for:

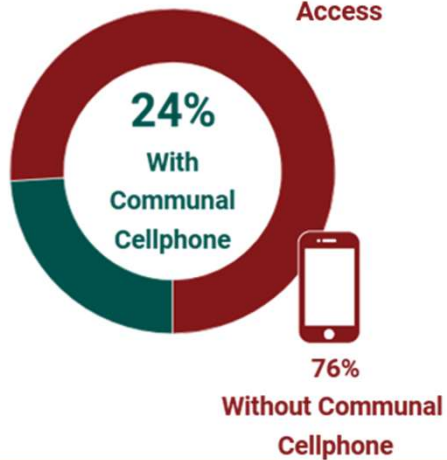

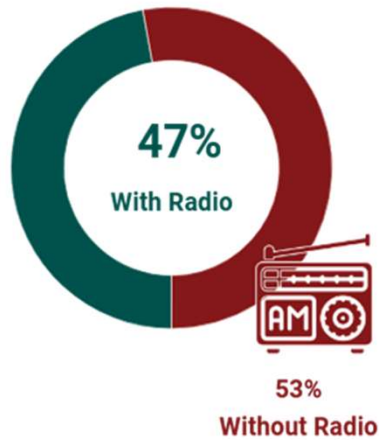

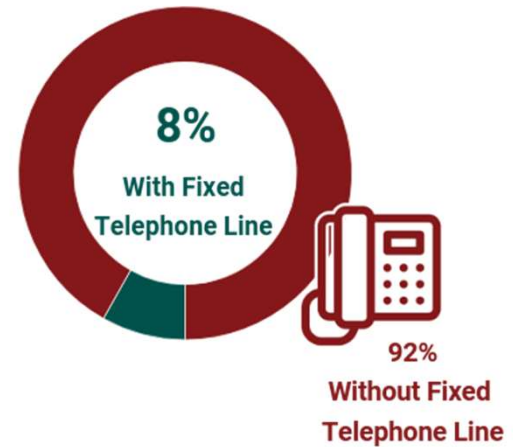

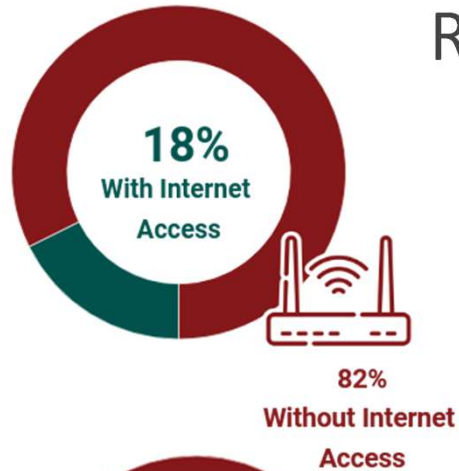

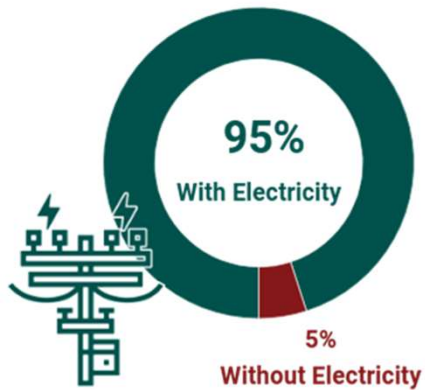

1. Sustainable Development Goals
2. ITU ICT Development Index
3. ASEAN Masterplan
4. Philippine Development Plan
5. National Broadband Plan
6. National Cybersecurity Plan
7. Other data requests

# KEY MILESTONES 2019-2020

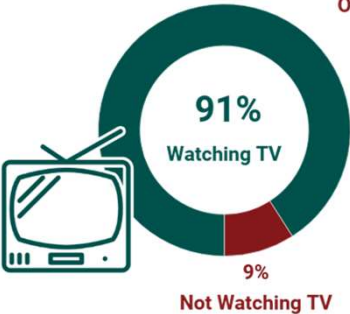

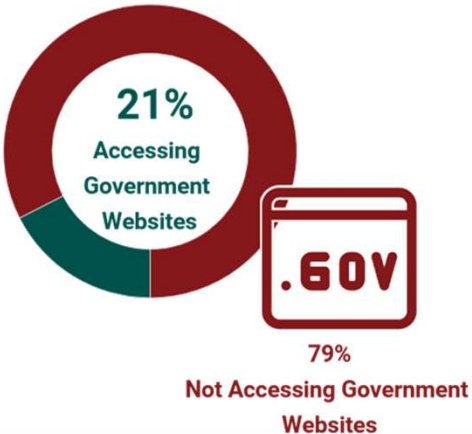

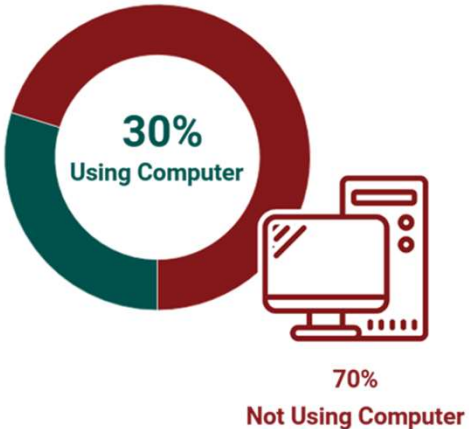

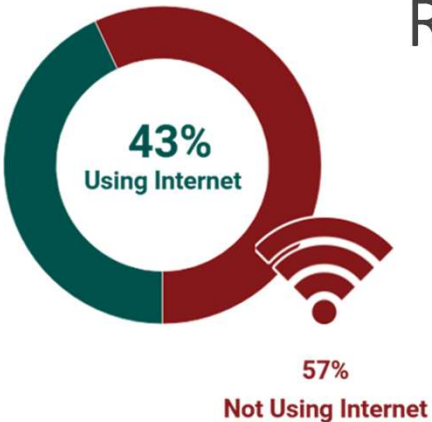

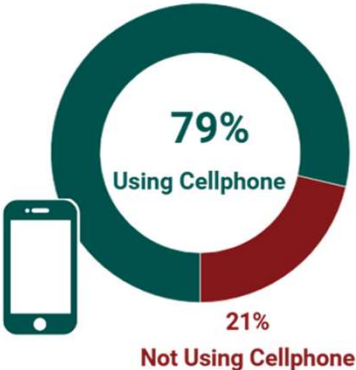

# RESULTS HIGHLIGHTS

## ICT ACCESS (HOUSEHOLD DATA)

# RESULTS HIGHLIGHTS

## ICT USE (INDIVIDUAL DATA)

# RESULTS HIGHLIGHTS

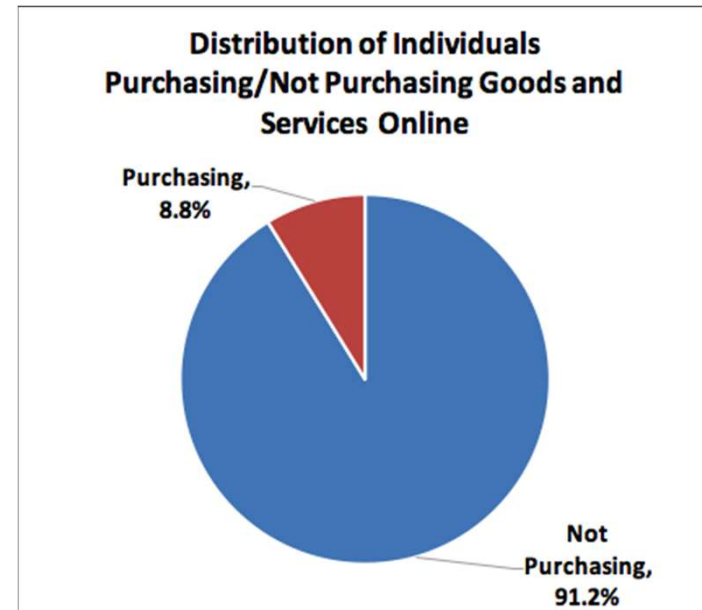

## ICT USE (TOP 5s)

Activities Using Computer (ICT Skills)	Activities of Using the Internet	Device In Using the Internet	Location When Using the Internet	Online Financial Transactions
<ol style="list-style-type: none"><li>1. Communication</li><li>2. Entertainment</li><li>3. Data encoding</li><li>4. Copy-paste tools</li><li>5. Sending Emails – Text Only</li></ol>	<ol style="list-style-type: none"><li>1. Social Networking Sites</li><li>2. Access to Information</li><li>3. Leisure/Lifestyle</li><li>4. Access to Government Websites</li><li>5. Learning</li></ol>	<ol style="list-style-type: none"><li>1. Cellphone</li><li>2. Desktop</li><li>3. Laptop</li><li>4. Tablets</li><li>5. Smart TV</li></ol>	<ol style="list-style-type: none"><li>1. In mobility</li><li>2. At home</li><li>3. Commercial establishments</li><li>4. Work</li><li>5. Another person's home</li></ol>	<ol style="list-style-type: none"><li>1. Buying</li><li>2. Payment</li><li>3. Selling</li><li>4. Banking</li><li>5. Booking of Delivery of goods</li></ol>

## Pilot Test of a Digital Economy Module

- Twenty-One Indicators on Digital Economy
- Key Findings:
  - Results reflect that e-commerce is not yet a thriving industry in the country.
  - Only 2.0% have sold online or have provided online services as online tutors, virtual assistants and the like.
  - Only 8.8% of respondents have bought products online.

# LESSONS LEARNED

- Trainings
  - Technical concepts needed to be carefully explained
    - Questionnaire
    - Computer Aided Personal Interviews
- Risks During Field Operations
  - Difficulty in locating some areas/vacant buildings
  - Unstable internet connection
  - Bad weather conditions – July – November
  - Limited mode of transportation in some far flung areas
  - Limited access to gated/exclusive subdivision
- Reference Period of the past three months
- Survey Software not up to expectations
- Adoption of model questions not totally feasible
- Technical terms needed to be changed
  - Used the term "cellphone" rather than "mobile telephone" since this is a more familiar term in the Philippines
  - Incorporated the term "communal" to capture only the households with a common-use mobile phone/ cellphone
- To conduct enumeration during the summer months
- Flash cards of the different types of Internet connectivity and TV connections were very useful

---

# DATA UTILIZATION AND DISSEMINATION

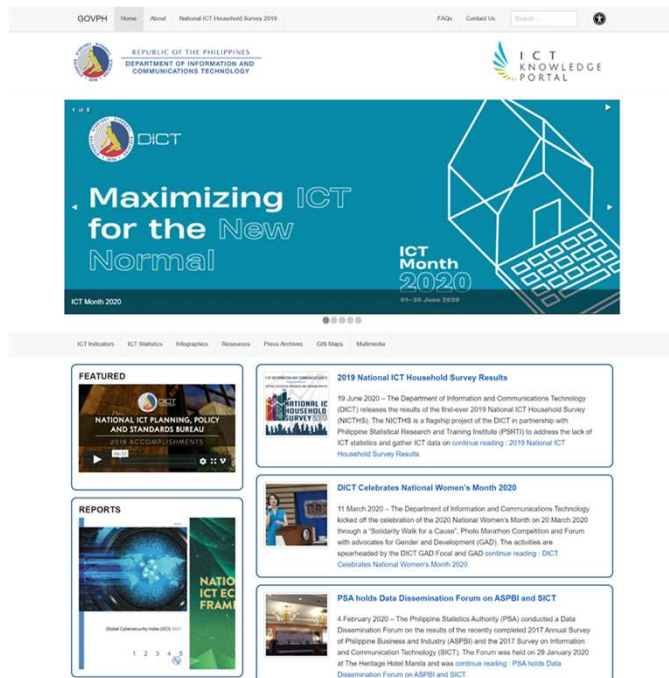

# DATA REQUESTS

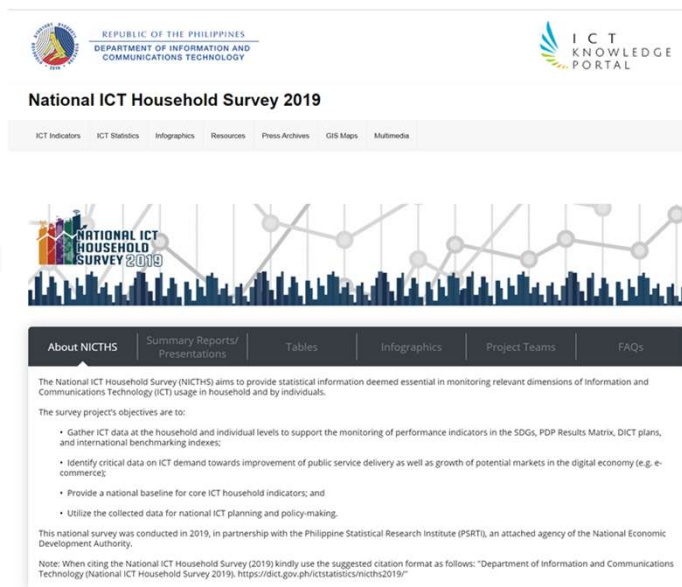

GOVERNMENT	PURPOSE
<p><b>Philippine Statistics Authority</b></p> <p><b>Philippine Institute for Development Studies (PIDS)</b></p>	<ul style="list-style-type: none"> <li>• Data on the Digital Economy, to be used for the revising and rebasing of the national accounts in accordance with the international guidelines based on the framework and methodologies of the System of National Accounts (SNA)</li> <li>• Driving inclusion through empowerment and decent work: The Case of Filipino Women in Online Work</li> <li>• Background papers on digital and platform economy for the Asian Economic Integration Report (AEIR)</li> </ul>
<p>ACADEME</p> <p><b>Management Engineering Major, Ateneo De Manila University</b></p>	<ul style="list-style-type: none"> <li>• “An Assessment of the Readiness of Each Household for Transitioning to Online Learning”</li> </ul>
<p><b>FASSTER Research Team, Ateneo De Manila University</b></p>	<ul style="list-style-type: none"> <li>• Need data on internet, TV, and radio accessibility among households; the Team aims to create a socioeconomic portal and economic models.</li> </ul>

# NEXT STEPS FOR THE NICTHS 2019

## ● Data Utilization

- **Philippine Institute for Development Studies (PIDS)**
  - DICT-PIDS collaboration on advanced data processing and analysis of the NICTHS
  - Output: Draft discussion papers and policy notes based on the results of the NICTHS
- **Philippine Statistics Authority**
  - DICT-PSA collaboration on survey on women's access to ICTs towards more gender-responsive social and economic policies
  - Output: Conduct of a Women and ICT Development Survey
- **Inter-Agency on ICT Statistics**
  - DICT-IAC collaboration using NICTHS results on the Digital Economy
  - Output: Initial DE statistical framework and indicators

THANK YOU!
