General guidelines on the BR IFIC

Installation troubleshooting:

- Windows 8 (only the PC version is supported):
  – installation not yet supported
  – users can use the BR IFIC in "plug-and-play" mode only

- Windows 7 or Windows XP:
  – if the users do not have administrator privilege, they must use the installer.bat script, found in \Packages\Windows\Disk1\InstData

- Windows Vista:
  – if the users have administrator privilege, they may run brific.exe (the navigation menu) "as administrator" in order to be able to install from the navigation menu
  – if the users do not have administrator privilege, they must use the installer.bat script, found in \Packages\Windows\Disk1\InstData

- If there is an installation warning at the end, it can be ignored
