

Tutorial on Terrestrial Notifications

In order to use the tutorial, click on the zip icon in front of "Notification Tutorial" in the web page of WRS-12 Terrestrial Workshop (as shown on the picture) to download Notification_Tutorial.zip. This file should be uncompressed in a folder on your PC. Then the file Start.htm should be opened by a browser (e.g. Internet Explorer).

WRS-12 Terrestrial Workshop

YOU ARE HERE > HOME > ITU-R > TERRESTRIAL SERVICES > WORKSHOPS

The objective of the terrestrial workshop is to enable participants to become familiar with the procedures, the preparation of frequency assignment/allotment notices, the use of Broadcasting service planning software. The workshops will be held in several countries. Questions related to the terrestrial workshop may be addressed to WRS_12@itu.int

Important note for the users of Google Chrome® browser: Before launching Google Chrome, please edit the application's shortcut and add "--allow-file-access-from-files" at the end of the "Target" value as it will look like "...\chrome.exe --allow-file-access-from-files". Use this modified shortcut to launch Google Chrome.
